The President's Speech

Millions of Americans sat by the radio Thursday night and heard President Roosevelt make his historic statement that American warships would shoot the first Axis ship that came near them in the North Atlantic. To me, it seems the president said no more and no less than could possibly be said under the circumstances.

Scouters to Hold Annual Meet Monday

Special Committee to Nominate Officers for Coming Year

The annual meeting of boy scout leaders for Hempstead county will be held in the city hall courtroom this Monday night at 8 o'clock day light savings time according to announcement made by George W. Ware, boy scout district chairman.

This is a very important meeting and all persons who have assisted with scouting and other interested persons are invited to be present. A report of scout development will be made by field scout executives Joe Clement and Mr. Sweringer of Texarkana, and new officers for the ensuing year will be nominated by a committee composed of Ed McFadden, A. W. Stubbeman, and Frank Ward.

Hope Leads in Legion Drive

Reports 500 Out of Total of 1,980 for 45 Posts

LITTLE ROCK — A total of 1,980 membership cards from 45 American Legion posts over the state have been turned in to the Arkansas Department from the recent membership drive, Bert Preson, state adjutant, announced Thursday.

Father McKee to Leave Hope

Will Be Replaced by the Rev. Francis X. Dollarton

Bishop John B. Morris of Little Rock announced that effective September 25, the Reverend Francis X. Dollarton, Assistant Pastor of St. Joseph's Church in Pine Bluff, will be appointed pastor of Our Lady of Good Hope church here.

Claim Atlantic Convoy Already Lost 22 Ships

Official Sources Indicate Action Is Answer to Roosevelt

By the Associated Press
Germany announced Friday, hard on the heels of President Roosevelt's order for a shoot-on-sight defense by American warships at the approach of a "rattlesnake Axis raider," that German U-boat torpedoes are even now slashing through waters of the north Atlantic in one of the greatest convoy attacks of the war.

Kidnaping Tale Is All a Fake

Sumrall Was Not Robbed and Wrecks Own Auto

Local police said Friday morning that Fred E. Sumrall, of Woodville, Texas, Southwestern Proving Ground worker who claimed Thursday that he was kidnapped by two unidentified men, carried to Smithville, Texas and robbed of his automobile and \$50 in cash, had confessed that it was all made up to keep his wife from finding out he had wrecked his automobile.

Must Return All Army Cards

Landowners With No Claims to File Should Say So

Landowners and all other farmers to whom land-use cards were issued by the Army in advance of the recent maneuvers in this county who have not sustained damage and who do not intend to file claims should return their cards stating that fact.

World Rulers

Heads wearing crowns these days aren't as uneasy as they once were, for rulers are inclined to be more democratic. Here's a king-size set of questions about sovereigns, past and present.

President's Address

WASHINGTON — (AP) — President Roosevelt firmly warned the Axis Thursday night that "no matter what it takes, no matter what it costs," German and Italian warships will be sunk on sight if they enter areas vital to American defense.

BRIDE FROM THE SKY

By HELEN WELSHIMER

Copyright, 1941
NEA Service, Inc.

THE STORY: Associate magazine editor Judy Allen finally realizes that she loves Roger Sandy Ammerman when he is dowled on a test flight to the west coast. Even though he has not crashed, as she feared at first, she still wishes to join him. Attorney Philip Rogers, also interested in Judy, is surprised that she still wishes to join, knowing Sandy is safe. Judy gets as far as Chicago when the plane crashes, and she is played together in a newspaper.

MORE MESSAGES

CHAPTER V

ONLY one moment before Judy had walked to music. Now, as she saw the pictures of Sandy and a girl whose eyes were wide and intriguing, whose hair was a halo of curls, the song went away, the violins died, and she was alone. Alone—and she didn't know why.

YOUNG AVIATOR RISKS LIFE FOR DEBUTANTE

She read the words again and again, frightened to go into the smaller type that told a more complete story. She could not sit there forever, though, with people milling around her.

So she read. And when the tale was done her decision was made. Made in spite of the yellow telegram that was still crushed in her hand. Sandy had made a fool of her. And hadn't cared. He could send his love across the silver wire to her at the same time that he told it to a blue-eyed, golden-haired beauty, whose name was synonymous with glamor in the social world.

Now she recognized that haunting face in the late editions. It belonged to Margaret (better known as Peg) Gordon. She had been voted the most popular, most beautiful, most colorful debutante of the preceding winter.

The story was simple enough. Flying over the Rockies, Sandy had sighted a distress signal. There wasn't much room for his ship to land for the flat plateau was partly occupied by Peg's own ship.

However, he had flashed an answer that he was coming down and proceeded to do so. Something had happened to the ignition in his descent, but beyond some scratches he was all right.

Peg Gordon had put up the signal as an emergency call. She alone was able to fly the airship that had brought the guests to her house party at her father's lodge inside the protected plateau. She had made it in two trips. When she sprained her ankle there was no way out of the hollow unless she climbed, which was now impossible, or caught the attention of another ship.

Why hadn't Sandy mentioned Peg? She had told him about Phil. There was a difference, though. She had not taken Phil seriously while Sandy might have held Peg's laughing face, blue eyes, and golden curls in an inner, sacred place.

Some day this would be over. Heart's never broke. They merely ached for a long time. Maybe forever. She could not say. She had not lived forever.

But she went to sleep remembering that she had seven freckles on the bridge of her tilted nose while Peg had a perfect nose and a skin as luscious

as Snow White's. Peg had come into the office of Under Twenty to be photographed a few times. Lying in bed, as the train swept across Illinois, Indiana, into Ohio, Judy wished that she had looked at Peg more closely. She reminded herself that there had been no reason for inspection, though. You only remembered someone who had definitely entered your own life's pattern.

THE train was at Newark when Judy awakened. In the mad scramble to get dressed and ready to leave the train at the Pennsylvania station, she did not think of Sandy. His memory would be there, in the corner of her mind, until she found a ragsman to cart it away. Later in the day she would sit down all alone on a red leather seat in a darkened booth somewhere and drink cups of hot tea and think the matter through.

The train was entering the tunnel under the Hudson river when she emerged from the dressing room. Her purple hat sat gaily on her bronze hair. The silver fox jacket looked chic and luscious over her purple suit. But her eyes were too dark, too wide in the white oval of her face. Her lips, rouged to a deeper red than she usually wore, were the only winging note.

As she followed the porter with her bag, she stopped suddenly. Someone was hurrying toward her—someone who was lean and tall and broad-shouldered—someone who took both of her hands in his strong grasp while keen eyes searched hers.

"Oh, Phil, I—I didn't know I'd be glad to see you," she heard her husky voice saying. "But how did you know I was coming this morning?"

"Process of elimination, my sweet. You weren't on any plane, either west or east, so I made a bet on this train. You haven't had breakfast, either, have you? Good! How about the Savarin?"

Phil did not mention the trip until she thanked him for relaying her message. "You were sweet to do it. We were flying around on broomsticks, weren't we?" she said, admitting nothing, denying nothing.

Answer he produced three more telegrams from his pocket. "They came to the office, so I asked the switchboard girl to sign for them," he explained.

"Mind if I read them?" she asked. Then she let her breath out slowly, the way air leaves a bright balloon when a string is loosened.

Sunday School Lesson

Symbolism of Book of Revelation Has Special Significance for World Text: Revelation 2:1-11

By WILLIAM E. GILROY, D. D.
Editor of Advance

The fact that the Book of Revelation is the last book in our Bible, with the additional fact that it deals so largely with "the last things," has given it a significance that tends somewhat to distort the book's real meaning and purpose.

So far as scholars can determine, it was not the last of our New Testament books to be written, but was written probably many years earlier than the Gospel of John and some of the epistles. Moreover, it was prominently written for Christians of its own time in their persecuted and harassed condition. Because of this fact, the book has particular timeliness today.

The emphasis upon "the last things" was to bring these suffering Christians the vision of ultimate victory and the glory of the triumph of right and truth. We must be careful not to dissociate the book from its own time and purpose in the conditions that the Christians of the early church were facing, for it is only in this way that we can derive the full message of the book for today.

The Book of Revelation, the only book of its kind in our New Testament, is what is called an apocalypse. In this respect it is like the Book of Daniel, and these books are part of a number of this sort that were written between the first two centuries before Christ and the first century after Christ.

This form of writing arose out of the legends and necessities of the time, for prior to the persecution of the early Christians, the Jews during the Maccabean period had passed through terrible persecutions. Under such conditions, just as today, it was not possible with regard to any safety for authors or readers to speak plainly, but messages had to be hidden and put in the form of imagery, visions, and symbols.

We have an example of this at the very moment in the extent to which the letter "V" has become a symbol of opposition to Nazi Germany through out large portions of Europe. The imagery and the symbols were probably well understood by those who read, or who heard the writings read at the time, but one difficulty of interpretation is that later generations do not have the same intimate knowledge of what was meant, and the result is that this Book of Revelation has been subject to all manner of controversies and speculations, many of them fantastic and also dubious in the highest degree.

This, along with the difficulty of interpretation, has led many thoughtful readers to take little interest in the Book, but this itself is a form of thoughtlessness, dictated by a rather too prosaic and practical an attitude. The Book of Revelation, as a matter of fact, is one of the most remarkable pieces of writing that has come

Church News

FIRST BAPTIST CHURCH

William R. Hamilton, Pastor

Sunday School meets at 9:40 (Daylight Saving Time).

Morning Worship Service at 10:55 with sermon by the Pastor on "The Eternal Guide."

Training Union at 7:00 p. m. for training in church membership.

Evening Worship Service at 8:00 with sermon by the pastor on "The Only Dependable Guide."

The public is cordially invited to all services of First Baptist church.

FIRST CHRISTIAN CHURCH

North Main & West Avenue B

John Keith Gregory, Minister

Bible School at 9:45 a. m.

Morning Worship & Communion Service at 10:50 o'clock.

Christian Endeavor Society at 7:15 p. m.

Evening Worship Service at 8:00 o'clock.

For the remainder of this month all local church functions will be scheduled according to the current Daylight Saving Time. With the first of October we will return to Central Standard Time, with all evening services or meetings set up to 7:30 o'clock.

It is urged that this information be kept constantly in mind so there will be no confusion in attendance on the part of congregation and friends.

The minister's pulpit messages for next Sunday are, respectively: "What Is Christianity?" and "Christian Revelation Is the Answer!"

The public is cordially invited to attend these services with the congregation.

UNITY MISSIONARY BAPTIST

511 South Elm St.

Elder Z. W. Swafford, Pastor

Song Service at 9:30 a. m.

Sunday School at 10 a. m.

Preaching 11 a. m.

BYPTC at 7 p. m.

Preaching at 8 p. m.

Ladies Auxiliary at 3 p. m. Tuesday.

Singing at 7:30 p. m. Tuesday.

Midweek Prayer Service at 7:45 p. m. Wednesday.

Come Worship with us, The Pastor's

subject at the 1 o'clock hour will be "Churning Butter."

ST. MARK'S CHURCH

Rev. Harry Wintermeyer

The 14th Sunday after Trinity.

The Holy Communion at 7:30 a. m.

The Holy Communion sermon at 11 a. m.

FIRST PENTECOSTAL CHURCH

West 4th & Ferguson

Rev. W. P. Graves, Pastor

Sunday School at 9:45 a. m.

Morning Worship at 1:00 a. m.

Evening Service at 7:30 p. m.

The pastor will speak at both morning and evening services. On Sunday September 21, Rev. H. V. Lindsay of St. Louis Mo., will begin a revival campaign in the church. Every one cordially invited.

HOPE GOSPEL TABERNACLE

(Assembly of God)

N. Main and Avenue D

J. E. Hamill, Pastor

The pastor has returned from the General Council in Minneapolis and will speak at both services Sunday.

Sunday morning he will give a detailed report of the General Council and in the night service will speak on "Our Place in the Present World Crisis," in keeping with the theme of the General Council session.

The annual Sunday school contest gets underway Sunday and it is believed that large crowds shall throng the Tabernacle on Sunday. If you are not attending Sunday elsewhere regularly, this is your invitation to visit the Tabernacle Sunday.

All services will begin as usual: Sunday school 9:45 a. m.

Morning worship 11 a. m.

C. E. Meeting 6:30 p. m.

Evangelistic service 7:30 p. m.

Special music and singing an added feature in all evangelistic service.

At the Tabernacle you are a stranger only once.

CATHOLIC CHURCH

Sunday is the Feast of the Exaltation of the Holy Cross, and also the 15th Sunday after Pentecost. Mass will be offered at 10:30 Daylight Saving Time.

Wednesday, Friday and Saturday of next week are Ember Days, that is days of fast and abstinence from flesh meat.

FIRST METHODIST CHURCH

Second at Pine

Kenneth L. Spore, Pastor

The Reverend K. L. Spore, pastor, will speak on "The Bible" Sunday morning at 10:50. The choir will sing "Open the Gates of the Temple" arranged by Dressler. Miss Harriet Story organist, will play for the prelude "Chanson" by Grotto; for the offertory "None But the Lonely Heart" by Tschakovsky; and for the postlude "March in G" by Smart.

The Reverend Mr. Spore will deliver an expository sermon on the First Chapter of Job at the evening worship service at 7:30. There will be special music by the choir.

Sunday Services Church School at 10:00 a. m. Morning Worship Service at 10:30.

Crosby and Hope Battle for Lamour and Loughs

Hit Comedy 'Road to Zanzibar' Returns to Rialto Theater

Laden with sparkling comedy, witty gags and a wealth of brand new songs, Paramount's new mirth and melody film, "Road to Zanzibar," opens Sunday at the Rialto Theater.

That it ought to be well entertained is practically a foregone conclusion. Starring Bing Crosby, Bob Hope and Dorothy Lamour, reunited for more merry-making after their hilarious and romantic adventures in the recent "Road to Singapore," the picture is an even funnier show.

Not only was "Road to Zanzibar" directed by the director of "Road to Singapore," but it was written by the same two clever comedy writers who fashioned the earlier Crosby-Hope-Lamour hit.

The songwriters Johnny Burke and Jimmy Van Heusen have turned out several new tunes to beguile us for the new film. Among them are "It's Always You," "Birds of a Feather," "You're Dangerous," "You Lucky People You" and "African Etude."

Bing and Bob in "Road to Zanzibar" are a couple of carnival men barnstorming their way through Africa trying to raise enough money to get back to the States. As Fergus Frazier, Bob has the job of carrying out all the bare-brained ideas Bing gets for new sideshow stunts. And how Bing can invent them! He has Bob soar through the air as a "Bat Man," has him frozen alive in a cake of ice, electrocuted, wrestling a bear and shot out of a cannon! And when you see Bob Hope performing in all of these scenes, you'll know you've seen the tops in comedy.

Dorothy Lamour and Una Merkel, as stranded vaudevillians, manage to pull a couple of fast ones on the boys. Bing and Bob fall for Una's story that Doty has been captured by slave-traders and that she's on the auction block. The boys buy her for one hundred and fifty kolaks, without knowing that Doty and Una are working a little racket of their own. Then the girls persuade Bing and Bob to use the last of their hard-earned money on a safari to take them through the jungle to Zanzibar, where Doty's "father" is ill. The "father" turns out to be a rich lad Doty intended to marry. All this is too disillusioning to the boys who decide to brave the jungle alone after leaving the girls with the safari equipment and guides.

"Road to Zanzibar" is a picture of fun, frolic and romance, with a touch of the unexpected. It's a picture that's sure to give you a good time.

Right's Right Is Man's Idea

By HOWARD W. BLAKESLEE

AP Science Editor

NEW HAVEN, Conn. — Yale's chimpanzees, which rate closest to human beings among the animals, give some evidence that man rather than nature invented right-handedness.

Glen Finch of the Yale Primate Laboratories, in 24,000 individual chimpanzee tests found that the animals were almost equally divided between left-handed and right-handed.

He used 30 animals, each of which was given 800 trials. They reached one hand or the other out of a hole in a cage to get food. Sometimes it was merely a matter of just sticking out a fist and grabbing.

But in other tests, the out-stretched fist had to do some expert opening of a closed metal box to get the food.

Either way made no difference to the chimps. Most of them were either left-handed or right-handed and stayed that way. Nine of the animals used the right hand more than 90 per cent of the time. Nine others used the left more than 90 per cent.

Five of them were decidedly ambidextrous. Ten of the animals showed ability to switch to the other hand when they wanted to. The rest did not try switching. All except two of the chimpanzees were adults.

"Sun Valley Serenade" Stars Sonja Henie and John Payne

Musical With Skating Star Opens Sunday

Saenger Picture Is Vacationland Combined With Romance, Music

With new skate and ski surprises in America's glorious vacationland combined with gay romance, music and fun, 20th Century-Fox's new entertainment inspiration, "Sun Valley Serenade," opens Sunday at the Saenger.

Starring Sonja Henie and John Payne in what is the finest performance of their careers, "Sun Valley Serenade" marks the film debut of the country's number one band, Glenn Miller and his Orchestra, in an appearance which will do much to increase the large number of his already enthusiastic fans.

Sonja is featured in new skating and skiing number of breathtaking beauty. The amazing skating routines through which she glides with such apparent ease show that her skill has increased since she attained the World and Olympic Figure Skating Championships.

The laugh provoking story has John Payne as a refugee who has promised to care for Mueh to his surprise, the "little" girl is Sonja who decides to marry him even though he is engaged to Lynn Bari. The hilarious ending provides a novel climax to the unusual story.

The performance of Glenn Miller and his Orchestra is tops. The band's playing of seven new Mack Gordon and Harry Warren tunes will please his most exacting fans.

Each of the Gordon and Warren tunes is destined to go into the hit class. Written especially for "Sun Valley Serenade," they are "I Know Why And So Do You," "It Happened in Sun Valley," "Chattanooga Choo Choo," "The Kiss Polka."

The new comedy team of Milton Berle and Joan Davis had the audience roaring with laughter. The dancing of the Nicholas Brothers surpasses their work in "The Great American Broadcast" and "Tin Pan Alley." "Produced by Milton Spelling, "Sun Valley Serenade" was directed by H. Bruce Humberstone from an excellent screen play by Robert Ellis and Helen Logan. The clever story was written by Art Arthur and Robert Harari.

Star Yourself in Pictures

Always Make Up Correctly Before Photo Taken

By BETTY CLARK

AP Feature Service Writer
You might as well be picture-perfect if you are going to pose for that candid camera fan in your family this winter.

Makeup can do the tricks for you it does for movie people.
This year you can get in one box all the cosmetics you need it.
Here are some hints for home-made picture stars:

1. Wash your face with soap and water or cold cream.
2. Next apply a foundation base (some say powder base) in light dots on forehead, cheeks, nose and chin. Smooth this very evenly.
3. Shadow features which are not your finest (the ones that stand out more than you like). Or highlight

They Fatten Up the Thin Man Again

HOPEWOOD—Bill Powell, Myrna Loy, W. S. Van Dyke and Asta are making another "Thin Man" picture. The two stars, the director and the dog are the only ones who have worked on all four. The Thin Man himself has been dead since 1934. Played by Edward Ellis, he was an inventor who was murdered after appearing in only a few scenes of the first film.

Nobody suspected, of course, that initial whodunit comedy, whipped up in 14 days, would make a million dollars, start a cycle of daffy domestic flickers and establish Miss Loy

recesses that are too pronounced.

4. Blend away any sharp edges where you have used shadow or highlight to minimize an imperfection.

5. Pat powder on your face plentifully and brush excess away from corners of nostrils, mouth and eyes.

6. Put lipstick on lightly.

7. You may omit cheek rouge entirely for black and white pictures.

8. Use a hairbrush to smooth hair—particularly about your face.

9. If you use an eyebrow pencil, be sure starting and stopping points of the eyebrow are softened.

10. Get your cameraman interested in helping you watch for ways to improve your makeup.

and Mr. Powell as the stars of a series. So when things turned out that way, it was too late to revive the original Thin Man, but the name was so valuable that it has been worked into the subsequent titles. Current effort is "The Shadows of the Thin Man."

Sitting in his dressing room and frowning over a script, Powell said the job is getting tougher all the time. Dashiell Hammett isn't around any more to write the original stories, nor are Albert Hackett and Frances Goodrich, who did the first two screen plays. New writers have a hard time staying within the established pattern, Powell explained.

Plot Thickened

Result is that the two stars and Director Van Dyke do a lot of re-writing as they go along. They're in frequent huddles over situations and dialog, and in thinking up new gags for the dog and the kid.

The youngster, by the way, is an anachronism. In the third "Thin Man" picture, the Charles' son was 8 years old, but in this one he's only 5.

The role is played by Dickie Hall, a prodigy who began to read at the age of 1, played the piano at 2, gave recitals at 3, and now knocks off Bach and Beethoven as easily as he steals scenes. Powell won't be surprised if Dickie writes the script for their next picture.

Powell certainly doesn't have to act in pictures unless he wants to, yet he always works as hard as a half-dozen average stars. The Thin Man, and particularly his teaming with Miss Loy, have done a lot for them. Their first picture together was "Manhattan Melodrama," in 1934, with Clark Gable a third member of the cast. Powell was free-lancing at the time, and the picture brought him a fat contract from Metro. Miss Loy was just beginning to emerge from slant-eyed siren roles.

Cesar Romero was given a boost by the first Thin Man. Jimmy Stewart played the murderer in the second, and Ruth Hussey started toward stardom in the third. The current picture is an important break for Donna Reed and Robert Nelson, a couple of ex-collegiate newcomers to Hollywood who have the romantic second leads.

Asta, the dog, was a Movie-town flop until he got a chance in the first Thin Man film. Trainer Henry East had coached Asta for two years, but couldn't get a job for him and gave him to a couple of friends. East had the foresight to keep a contract permitting him to work the dog in movies. Asta has earned a good-sized fortune by now in a total of 54 pictures, and he again belongs to East.

A fixture in the series now is Sam Levene, who in the second film created the role of Lieutenant Abrams of the homicide squad. The comedy cop never could solve a case without Nick's help.

Gulf Coast, where it is exposed to hurricane winds, the structure is designed to withstand a wind pressure of 75 pounds per square foot. Similar structures in other localities are customarily designed to withstand wind pressure of only thirty pounds per square foot, which is the equivalent of about 120 mile an hour wind. Unusually deep mud at the bridge site also created an additional problem of considerable magnitude.

Not far from the highway bridge over the Neches River, another bridge designed for the Kansas City-Southern Railway, is now being completed at Beaumont. This \$500,000 structure is to be a vertical lift type draw-bridge.

In addition to the above bridges the firm is currently engaged in designing a number of bridges and viaducts throughout the United States.

One is the \$750,000 Southwest Traffic Way Viaduct at Kansas City, Missouri, being built for the city. Another is a railroad bridge over the Missouri River for which the Milwaukee Railroad and the Rock Island Railroad will pay \$1,500,000. Additional designs are just being completed for a \$500,000 viaduct for the State of Delaware, and plans are likewise being completed for four Bascule, or draw bridge, spans for the State of New Jersey, to cost approximately \$1,000,000. The partnership has designed a large number of movable spans for the State of New Jersey in recent years, the largest of which is the Passaic River Bridge at Newark, New Jersey, with a vertical lift span costing about \$3,000,000.

Recently the firm designed the \$1,250,000 East Chester Creek Bascule Bridge in the city of New York for the Triborough Bridge Authority and at present is serving the Authority in a consulting capacity for the White-stone Bridge over Long Island Sound.

In the same area it is likewise serving as consultant to the Engineer Corps, U. S. Army on the reconstruction of the Jersey Central Railroad Bridge over the Hackensack River under the Hobbs Law. This latter structure will cost approximately \$2,500,000.

Each year the American Institute of Steel Construction, and Association made up of steel manufacturers and processors throughout the United States, give prizes for the most beautiful bridge of its type built during the current year. Howard, Needles, Tammen and Bergendoff won the prize for the year 1930 by constructing the Shrewsbury River Bridge in Monmouth County, New Jersey, at a cost \$1,100,000. A second bridge in Monmouth County, over the Shunk River also won a prize for its class at the same time. The firm also served as advisory engineers to the state of New Jersey on the \$22,000,000 Pulaski Skyway across the Jersey meadows between Newark and Jersey City, which won the prize as being the most beautiful steel bridge completed in 1932.

The total cost of all bridges designed by Howard, Needles, Tammen and Bergendoff in the past years total many millions of dollars, while the cost of bridges completed in 1940 amounts to approximately \$15,500,000. Work under construction design for the current year 1941 approximate \$12,000,000.

Mr. Enoch Needles, resident member of the partnership in charge of designing and supervising the construction for the Southwestern Proving Ground, states that the Project at Hope is unique, in that it is one of the two Proving Grounds now being built in the United States under the National Defense Program.

Construction for the project ranges from a standard type administration building to the highly specialized

construction of bomb-proof shelters of reinforced concrete. The unusual character of these facilities to be constructed, together with the large size of the reservation combine to make the Project very attractive to the engineering profession, states Mr. Needles. But most of all, he adds, it offers to engineers an opportunity to participate in the United States Defense effort.

And so, he asserted: "Let this warning be clear. From

Deliver Us!

"The Girl the National Association of Letter Carriers Would Most Like to Play Postoffice With" is Alexis Smith of the films. Letter carriers Siegfried Hnas, left, and Ross Shriver deliver the glad tidings from their convention in Los Angeles. Dog days and the silly season will soon be ended.

Claims Atlantic

(Continued From Page One)

lary, had said earlier in the day that the speech would leave no question unanswered. One, however, did remain. That was a definition of what areas of the sea were considered vital to American defense.

Obviously they were intended to include the North Atlantic as far as the American outpost in Iceland, and a little beyond. How much beyond was the question. Obviously, too, they would include the areas of approach to the nation's outposts in Bermuda, in the Caribbean and in the Panama Canal area.

Mr. Roosevelt himself called his action purely a defensive one.

"We have not sought a shooting war with Hitler," the president said. "But neither do we want peace so much that we are willing to pay for it by permitting him to attack our naval and merchant ships while they are on legitimate business."

And so, he asserted: "Let this warning be clear. From

construction of bomb-proof shelters of reinforced concrete. The unusual character of these facilities to be constructed, together with the large size of the reservation combine to make the Project very attractive to the engineering profession, states Mr. Needles. But most of all, he adds, it offers to engineers an opportunity to participate in the United States Defense effort.

But most of all, he adds, it offers to engineers an opportunity to participate in the United States Defense effort.

And so, he asserted: "Let this warning be clear. From

construction of bomb-proof shelters of reinforced concrete. The unusual character of these facilities to be constructed, together with the large size of the reservation combine to make the Project very attractive to the engineering profession, states Mr. Needles. But most of all, he adds, it offers to engineers an opportunity to participate in the United States Defense effort.
